

Charging Bank

Fixed Installation Charger

The Ultra 100/12 charging system has the capacity to individually charge up to 12 x 12V battery packs.

Divided in to 2x banks of 6 charging points, the charger displays a simple indicator sequence to advise of any faults, charging status and fully charged states.

The fixed installation charger is designed for off-site charging in the depot, and can be wall mounted to form a bespoke charging station.

FEATURES
