

**FleetAssist**

Now with:

**ACM**

# We've got your back

Reduce the cost of fleet ownership and meet changing work demands with **FleetAssist**

**FleetAssist** is a unique traffic signal hire service that allows customers to top-up their fleet to meet seasonal or unforeseen demands. Our brand new ACM enabled fleet features a traffic signal offering up to 5-way control, a pedestrian crossing set capable of 5-way traffic control plus up to 4 pedestrian crossings.

For more complex schemes we are able to offer UTC compatibility and phase-based signalling up to 9 traffic phases and 8 pedestrian crossings.

Now with **Active Channel Management (ACM)**, Evo ACM signals have much improved radio communications reliability, even in challenging urban environments. ACM actively monitors the radio waves, dynamically switching channels to avoid conflicts, ACM enabled signals can also be deployed nearby other temporary signal installations without issue.

Evo ACM signals feature an advanced FMCW radar enabling Smart VA, which prevents over-extension of green times and reduces vehicle waiting times.

**For CLF plan and stage-based signalling, please enquire about our Evo1 and Metro systems with Professional Services support.**

## BENEFITS

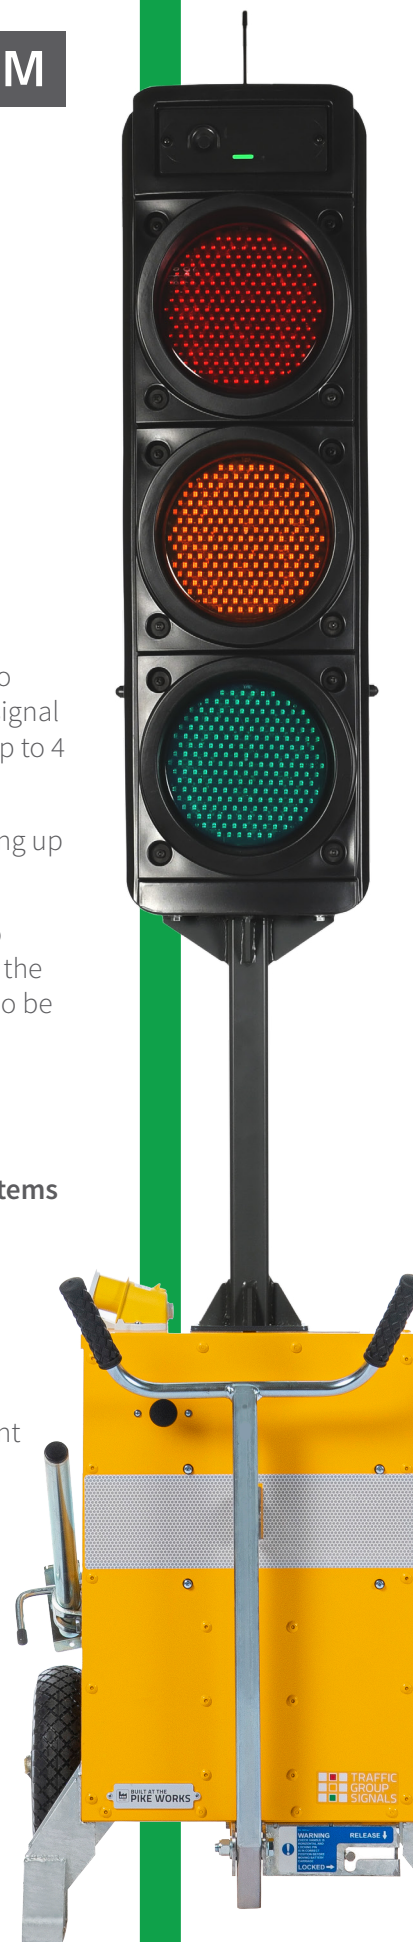

- ACM provides reliable radio communications
- Multiphase Smart VA
- Improved battery security
- Distinctive new livery with reflective band for high visibility
- Reduced cost of ownership
- Hire direct from the manufacturer
- Well maintained, fully tested equipment
- Support from our service engineers
- In-built chargers and locks

## Signal Hire

Traffic Group Signals offer a range of signals to suit short and long term requirements.

Prior to delivery, each signal undergoes rigorous factory acceptance testing, including PAT and battery check. For long term agreements, signals can be fitted with personalised branding.

If you have bespoke requirements and would like to discuss our wider offering, please contact: [hire@trafficgroupsignals.com](mailto:hire@trafficgroupsignals.com).

### HIRE RATES

	Ad-Hoc Hire	1 Year Hire Agreement
